\$69

3

What else do we recommend?

## • Preparing for the Big Day •

What to do!

- DO plan on dropping on between 7:45-8:30 am the morning of the procedure
- DO allow 10-15 minutes for a technician to review the consent form
- DO plan on picking up the day of the procedure between 4:30-6 pm
- DO allow 10-15 minutes for review of the discharge instructions

What not to do!

- DO NOT feed anything after 10 pm the night before the procedure
- DO NOT withhold water overnight
- DO NOT allow any running, jumping or playing while the incision is healing (10-14 days)
- DO NOT allow your pet to lick at their incision!

SCHEDULING CONFLICT?

Don't worry about it!

Ask us about dropping off the night before or picking up the morning after surgery.

IMPORTANT POINT!

If you think your pet might need an e-collar, let us know!
